

# Summer school for advanced studies on biometrics: New technologies for security and privacy

June 9 - 13 2008

## Preliminary course schedule

	9:00 - 9:30	9:30 - 11:00	Coffe break	11:30 - 13:00	Lunch break	15:30 - 17:00	Coffe break	17:30 - 19:00	19:30
<b>Monday June 9</b>	<b>Massimo Tistarelli</b> (University of Sassari) Opening	<b>Arun Ross</b> (West Virginia University) Biometric recognition: a new paradign for security		<b>Davide Maltoni</b> (University of Bologna) Fingerprint recognition and performance evaluation	13:00 - 15:30	<b>Alessandro Verri</b> (University of Genova) Classifiers and learning theory		<b>John Mason</b> (University of Swansea) Introduction to speaker recognition	<i>Welcome cocktail</i>
	9:00 - 10:30		Coffe break	11:00 - 12:30	Lunch break	15:30 - 17:00	Coffe break	17:30 - 18:30	
<b>Tuesday June 10</b>		<b>Tieniu Tan</b> (Chinese Academy of Science) Iris recognition		<b>Massimo Tistarelli</b> (University of Sassari) Face recognition technology	12:30 - 15:30	<b>Mark Nixon</b> (University of Southampton) Gait recognition		<b>Farzin Deravi</b> (University of Kent) Biometric standardization and testing	
	9:00 - 10:30		Coffe break	11:00 - 12:30	Lunch break	15:30 - 16:30	Coffe break	17:00 - 18:00	18:00 - 19:30
<b>Wednesday June 11</b>		<b>Martin Meintz</b> (ULD Kiel) Security and Privacy		<b>Josef Kittler</b> (University of Surrey) Multiple classifier fusion in biometrics	12:30 - 15:30	<b>Andrzej Drygajlo</b> (EPFL Lausanne) Criptography and biometrics		<b>Ben Schouten</b> (Fontys University) Biometric systems and identity management	<i>Student presentations</i>
					Lunch break	15:00 - 16:30	Coffe break	17:00 - 18:00	18:30
<b>Thursday June 12</b>		Boat trip on Capo Caccia bay or other leisure activities			13:00 - 15:00	<b>Barry Johnson</b> (Privaris) Match on card systems		<b>Robert Rowe</b> (Lumidigm) Liveness detection in biometrics	<i>Visit to Alghero and Gala dinner (20:00)</i>
	9:00 - 10:30		Coffe break	11:00 - 12:30	Lunch break	15:30 - 16:30	Coffe break	16:30 - 17:00	
<b>Friday June 13</b>		<b>Alice O'Toole</b> (University of Texas) Biological recognition of human faces		<b>Josef Bigun</b> (Halmstad University) Orientation patterns	12:30 - 15:30	<b>Fred Preston</b> (Motorola) Industrial exploitation of biometric technology		<b>Massimo Tistarelli</b> (University of Sassari) Concluding remarks
